

STEM Certification: A Deep Dive Into Student Work Groups

September 30, 2020
8:30 am - 11:30 am
or
12:30 pm - 3:30 pm

\$50 ESC Member | \$75 Non-Member

The Indiana STEM School Certification application process requires: 1. students to collaborate with peers, 2. that each team member has a critical role and, 3. that accountability is measured and recorded for the individual and the entire group. This workshop is intended to assist you in meeting all three components of Element 3.3 STEM Instructional Work Groups.

Workshop Agenda

- Review components of Element 3.3 from the STEM School Certification Rubric
- Explore how to integrate all 3 components of Student Instructional Workgroups into your instructional practices
- Receive guidance on how you can document required evidence for this Element in your STEM School Certification Application

Register
