

Virtual: ILEARN Performance Task for Math

November 18, 2020
8:30 am - 11:30 am
Or
12:30 - 3:30 pm

\$50 to ESC Member | \$75 Non-Member

The ILEARN performance task asks students to perform problem solving and critical thinking in a new and unique situation. The ILEARN is the first standardized assessment our students have been required to take that ask them to do this type of thinking. Are we addressing this level of thinking in the classroom?

In this workshop we will:

- Explore John Hattie's model and structure of math tasks with his surface, deep and transfer learning.
- Examine specific strategies and actions that teachers can use in the classroom encourage students to have the stamina and motivation to do the performance tasks.
- Discover instructional moves you can implement in your classroom tomorrow with little effort.
